Answer

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI RAJIV PRATAP RUDY)

(a) & (b) Identification of export markets and opportunity assessments in such identified markets is a continuous process undertaken by all the export promotion bodies in the country. Indian Industry gives suggestions from time to time to protect and expand India`s share in world trade including trade with the ASEAN region and China.These are examined and appropriate steps are taken during the formulation of Export Strategy, EXIM policy and during the bilateral meetings with the different countries.In the Medium Term Export Strategy for 2002-07, announced recently, 25 focus markets have been identified which also includes South East Asian countries including China.
